OF EMERGENCY SERVICES

# **SITUATION SUMMARY**

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

## **Weather of Concern**

- Critical fire weather conditions in effect through this evening for portions of Inyo, Tulare Counties; and from Wednesday morning through Thursday evening for areas in Los Angeles, Ventura, San Bernardino, Orange Riverside, San Diego, Imperial Counties. The combination of gusty winds, low relative humidity, and dry fuels could create conditions favorable for extreme fire behavior and rapid fire growth. Strong and damaging winds from this evening through Wednesday morning for Santa Barbara County, and from this afternoon through Thursday afternoon for portions of Los Angeles, Riverside, San Bernardino, San Diego, and Ventura Counties.

## **February 2015 Winter Storms Proclamation, Mendocino County**

A Proclamation from Mendocino County has been received due to severe damages from the February 2015 Winter Storms. CDAA has been requested along with a Governor's concurrence.

## **SIGNIFICANT FIRE ACTIVITY**

### **Northern California:**

#### **Ward Incident , Plumas County, FRA**

Per Cal OES FDO and CAL FIRE ICS-209 dated 04/14/15 at 1712 hours::

- 10 miles SE of Taylorsville
- Type 3 IC
- 157 acres at 70% – Expected Containment 04/15/15
- No structure or infrastructure threats
- Slow rate of spread in timber
- No OES or Local Government resources committed

# WEATHER

## WEATHER SYNOPSIS BY REGION:

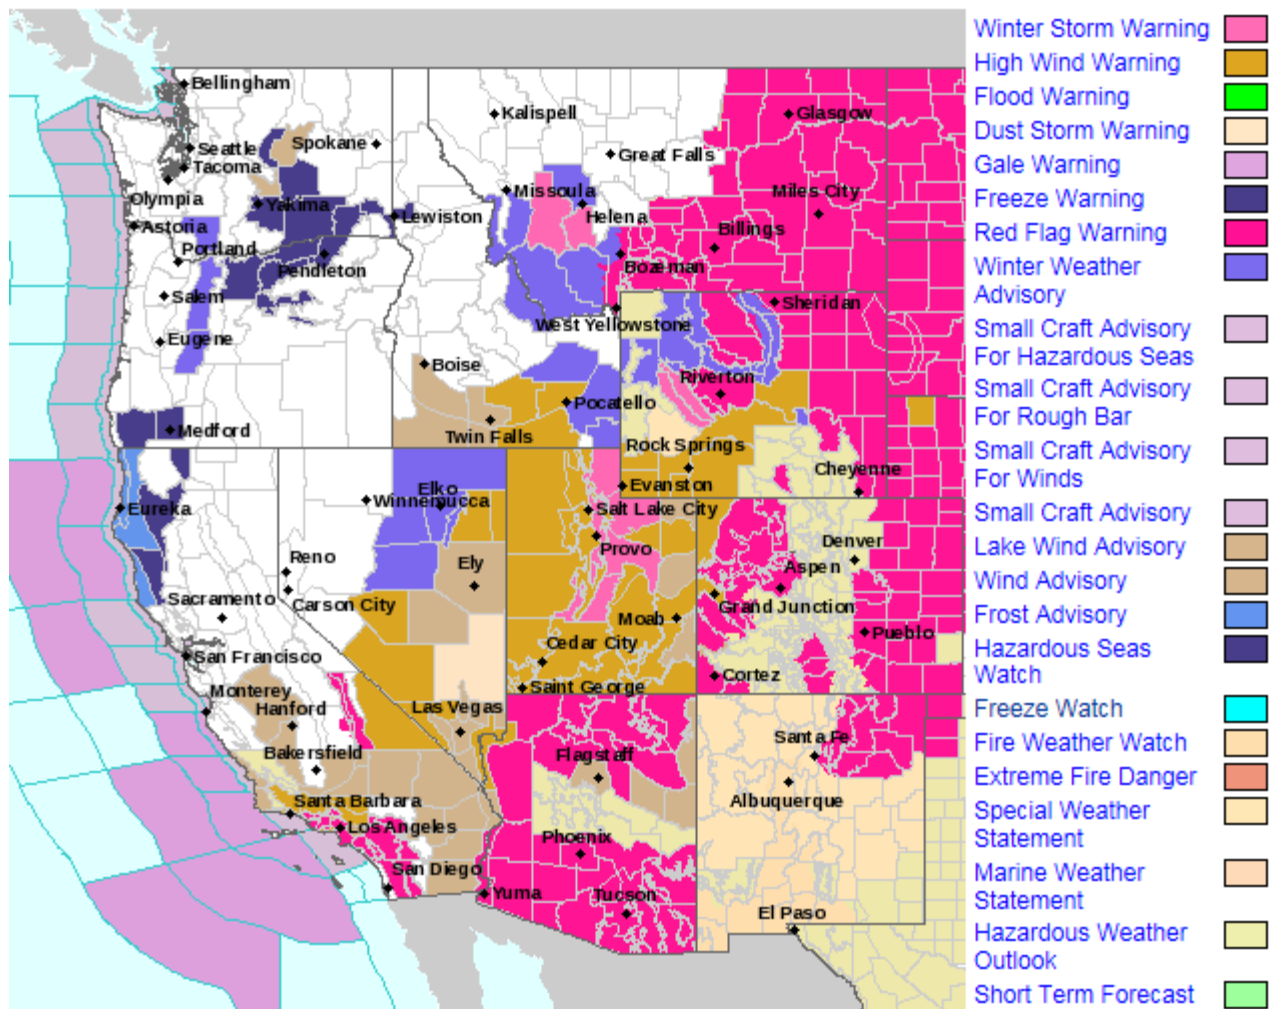

### **NORTHERN CALIFORNIA**

A quick-moving cold low pressure trough is finishing its west-to-east move across northern California today. It has produced wetting precipitation in and near the Northwest corner of California and along the North coast. Lesser totals came in showers across the Oregon-border counties farther inland overnight. Today, remaining shower chances are mainly near the Oregon border and along the Cascade/Sierra and eastward, with snow levels locally down to 3000 feet. This is all in sharp contrast to what is coming soon though, as high pressure aloft will quickly rebound over the area tonight and Wednesday, then dominate into at least the early weekend. After the moderate to stronger pre-frontal southwest winds of Monday, winds turn light to moderate northwest to north-northeast post-frontal today, over much of the Area. For Wednesday through midday Thursday these will transition to mainly northeast to east-southeast winds, primarily affecting areas from the Sacramento Valley/Foothills and southwestward. Daytime temperatures will be quite cool today up in the north, but otherwise Wednesday through Friday will see sharp warming, that may bring warmest low valleys to about 90 degrees by Friday. There might be a weak low developing over northern California by mid-weekend, but models are inconsistent on location and likelihood so far.

### **SOUTHERN CALIFORNIA**

A trough moving into the Great Basin from the Pacific Northwest will bring westerly winds of 20 to 30 mph with gusts to 50 mph to the Owens Valley, Tehachapi Mountains, Antelope Valley, and Banning Pass through this afternoon. Temperatures will cool to near normal today, with 50s to low 60s in the mountains and upper 60s and 70s in the valleys. Minimum humidity will be mainly between 15% and 30% today, except it will be in the single digits and teens across the deserts. Strong high pressure will build into the West Coast bringing a big warming trend along with widespread minimum humidity in the single digits and teens Wednesday through Friday. Temperatures will reach the low 90s over the warmer valley locations Thursday and Friday. Winds will be north 20 to 40 mph with gusts to 60 mph across the south coast of Santa Barbara and the Grapevine tonight and then become northeast to east 15 to 30 mph with gusts to 50 mph and affect much of Southern California from Ventura County southward Wednesday morning through Thursday afternoon. A cooling trend and a slow increase in humidity will occur Saturday through early next week as an area of low pressure drops down the California Coast. Isolated afternoon thunderstorms will be possible over the Sierra with this low pressure area.

## RECOVERY ACTIVITIES

### Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.

#### **Project Totals as Day 13:**

38	Homeowners who registered for the removal project.
3	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
15	Debris removal completed.
9/9	Confirmation sampling completed/approved.
0	Erosion Control Completed.
0	Approved by County for Building Permit.

#### **Estimated Project Total Tonnage for the Project as of Day 13:**

Category	Total Tons
Debris and Ash Disposed	1,972
Soil Disposed	1,789
Metals Recycled	799
Concrete Recycled	1,609
Total All Categories	6,169

#### **Estimated Daily Tonnage:**

Category	Day 13
Debris/Ash	305
Soil Disposed	170
Metal Recycled	78
Concrete Recycled	165
Total	718

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought
